1. *Pharmaceuticals*—The pharmaceutical industry is the largest of the three industries, with sales of \$10.5 billion in 1987. It is the only industry in the sample that has a significant number of firms that are publicly traded. The industry is characterized by high R&D expenditures, high barriers to entry, and a high degree of concentration. The industry is also characterized by a high degree of competition, with many firms competing for market share.
